**Solid carbide mills
for a special one-off price starting from €14***

Promotional period: 01 March to 30 September 2024

* See next page for promotion conditions.

TRUST BLUE

Special trial offer for solid carbide mills

Promotional period: 01 March to 30 September 2024

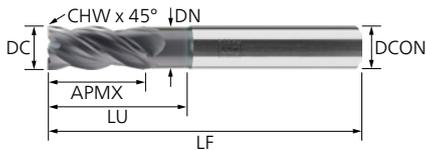

The benefits to you from PFERD solid carbide mills:

- The highest quality standards thanks to very narrow manufacturing tolerances and the use of an application-optimised tungsten carbide grade.
- High productivity due to optimum stock removal rate.
- Lower tool wear thanks to modern PVD TiAlN coating.

Discover the benefits for yourself!

Get up to 5 solid carbide mills in each diameter at our special one-off price now!*

Universal end mills with four edges UC4, chamfer corner design

Mills for various applications, from roughing through to finishing and ramping. The solid carbide mills are suitable for universal use on a variety of materials.
